

GOVERNOR ARNOLD SCHWARZENEGGER

August 13, 2008

Biotech Partners

On behalf of all Californians, I am delighted to extend greetings to all those gathered for the *Posters2008* event.

I commend your efforts to offer students the opportunity to obtain first-hand experience in the biotech industry. This cutting-edge field has an important role in our economy, and it creates rewarding jobs for many people. My thanks go to your staff, volunteers and other supporters for fostering the curiosity of students interested in this career path.

I also applaud the many young people involved in this program. Studying the sciences opens up a world of learning and opportunity, and your hard work helps ensure that California will remain a leader in developing technologies that change the world for the better.

Congratulations to all of the interns on their successful completion of this program, and please accept my best wishes for every future success.

Sincerely,

A handwritten signature in black ink, appearing to read "Arnold Schwarzenegger".
